

Alexey Ott's Curriculum Vitae

Personal Information

- **Name:** Alexey (Alex) Ott
- **Address:** Paderborn, Germany
- **E-mail:** alexott@gmail.com (please use it as primary contact)
- **Phone:** +4917650439409 (mobile)
- **Citizenship:** German, Russian
- **Date of Birth:** 1974
- **Personal site:** <http://alexott.net/en/>
- **LinkedIn profile:** <http://www.linkedin.com/in/alexott>
- **Blog:** <http://alexott.blogspot.com>
- **Github:** <https://github.com/alexott>

Summary

- Significant experience in products development for information security;
- Leadership in software development projects (commercial & open-source);
- Software architect and developer using different programming languages & technologies (cloud, on-premise);
- Business vision of tasks & requirements, results-oriented.

Work Experience

- **Principal Architect** at DataStax
Dates (from-to): 09.2019-now
Name and address of employer: [DataStax](http://datastax.com)¹, 33100 Paderborn, Germany
Positions held: Principal Architect
Type of business: Software Development/Big Data
Main activities and responsibilities:
 - Working with customers on delivery of solutions based on the DataStax Enterprise, including architectural reviews, building prototypes, implementation guidance, pre- & post-release health checks, analysis of performance & other problems, providing guidance on fixing them, etc.;
 - Delivering advanced trainings to customers;
 - Preparing statements of work, and other customer-facing documents;
 - Mentoring team members;
 - Working on improving internal processes;
 - Contribution to products, tooling, documentation, etc. in form of patches, JIRAs, reviews;
 - Pre-sales activity - discussion of possible architectures with customers, helping prepare sound technical proposals, etc.;
 - Providing feedback to product teams on new functionality requested by customers, and general feedback on existing functionality;

Technology stack: DataStax Enterprise, Apache Cassandra, Apache Spark, Apache Solr, DC/OS (Apache Mesos), Kubernetes, Java, Python, Clojure, Scala, Apache Kafka/Kafka Streams/KSQL, Linux, ...

Awards:

¹<http://datastax.com>

- President’s club FY20 (2019)
- **Senior Solutions Architect** at DataStax
Dates (from-to): 03.2019–08.2019
Name and address of employer: DataStax², 33100 Paderborn, Germany
Positions held: Senior Solutions Architect
Type of business: Software Development/Big Data
Main activities and responsibilities:
 - Same as above;
- **Solutions Architect** at DataStax
Dates (from-to): 01.2018–02.2019
Name and address of employer: DataStax³, 33100 Paderborn, Germany
Positions held: Solutions Architect
Type of business: Software Development/Big Data
Main activities and responsibilities:
 - Similar to above, with slightly smaller scope;**Awards:**
 - Execution Excellence Q2 FY19 (2018)
 - President’s club FY19 (2018)
- **Senior Software Architect** at McAfee/Intel Security
Dates (from-to): 10.2016–12.2017
Name and address of employer: McAfee⁴, 33100 Paderborn, Germany
Positions held: Solution Architect
Type of business: Software Development
Main activities and responsibilities:
 - Architecture of the CDP (Cloud Data Protection)⁵ solution (implementing elements of CASB), involving multiple teams & products (18 teams, ~150–180 engineers). Communication with stakeholders, preparing the architecture, tasks definition & coordination for involved teams (very geo-distributed - from India to US West coast), evaluation of technologies & prototyping, implementation of some components (Java, C++, Clojure, Docker-based microservices, Elasticsearch, Kafka, Spark, ...);
 - Development of URL & Content Categorization system using the range of machine learning & big data technologies (Apache HBase, Apache Solr, Apache Spark). Implementing the full machine learning workflow - model design, data collection & cleanup, feature extraction & selection, model evaluation, production deployment. Development of experimental models with Keras, XGBoost, scikit-learn, other frameworks.
- **Software Architect** at Intel Security. (*subsidiary of Intel Corporation*)
Dates (from-to): 07.2014–09.2016
Name and address of employer: Intel Security⁶, 33100 Paderborn, Germany
Positions held: Software Architect
Type of business: Software Development
Main activities and responsibilities:
 - Architecture and development of new URL & Content Categorization system using the range of machine learning & big data technologies (Apache HBase, Apache Solr, Apache Spark). Implementing the full machine learning workflow - model design, data collection & cleanup, feature extraction & selection, model evaluation, production deployment. Introduction of new system lead to greater coverage of the categorized resources, increased customer satisfaction, and decreasing of number of escalations;

⁶<http://intelsecurity.com>

- Architecture & implementation of the log processing system (Apache Kafka, Apache Spark Streaming, Elasticsearch) that is base for **McAfee Cloud Visibility**⁷ offering & reporting in **Web Gateway Cloud Service**⁸.
 - Architecture of the CDP (Cloud Data Protection) solution involving multiple teams & products. Communication with stakeholders, preparing the architecture, tasks definition for involved teams, evaluation of technologies & prototyping, implementation of some components (Java, C++, Clojure).
- **Mentor** at Google Summer of Code 2014
Dates (from-to): 05.2014–08.2014
Main activities and responsibilities: Mentor for the project “Incanter and core.matrix integration”
- **Software Architect** at *McAfee, Inc. (subsidiary of Intel Corporation)*
Dates (from-to): 03.2013–06.2014
Name and address of employer: **McAfee, Inc**⁹. 33100 Paderborn, Germany
Positions held: Software Architect
Type of business: Software Development
Main activities and responsibilities:
 - Architecture and development of identity management & CASB (cloud access security broker) components inside McAfee Web Gateway: SSO (Single Sign-On), Cloud Storage Encryption, etc.;
 - Coordination of development with other teams, requirements analysis, tasks definition, etc.
- **Principal Software Engineer** at *McAfee, Inc. (subsidiary of Intel Corporation)*
Dates (from-to): 04.2011–02.2013
Name and address of employer: **McAfee, Inc**¹⁰. 33100 Paderborn, Germany
Positions held: Principal Software Engineer
Type of business: Software Development
Main activities and responsibilities:
 - Architecture and development of web-filtering and data leak prevention software (McAfee Web Gateway);
 - Provide training & support for 3rd party developers;
 - Quality “owner”, responsible for introduction of quality-improving techniques and methodologies (code reviews, unit testing, analysis of existing problems & errors, continuous integration, static code analysis, etc.)—together with other organizational activities this lead to increase of product’s quality, decrease number of customer escalations.
- **Author & Editor** at *Practice of Functional Programming (Journal)*
Dates (from-to): 04.2009–04.2011
Main activities and responsibilities:
 - Author of several articles on functional programming (Clojure, Scheme, etc.)
 - Preparation of new journal issues
- **Senior Software Developer** at *McAfee, Inc.*
Dates (from-to): 01.2007–03.2011 (2007–2008—Secure Computing Corp.)
Name and address of employer: **McAfee, Inc**¹¹. 33100 Paderborn, Germany
Positions held: Senior Software Developer
Type of business: Software Development
Main activities and responsibilities:
 - Development of content-filtering software (Webwasher/McAfee Web Gateway);
 - Architect of new versions of software—collecting requirements, creating top-level view, planning development activity, etc.

- **Head of Software development group & architect at Jet Infosystems**
Dates (from-to): 10.2001–11.2006
Name and address of employer: Jet Infosystems¹². B. Novodmitrovskaya, 14/1, 127015 Moscow, Russia
Positions held: Head of Software development group, System Architect
Type of business: System Integration
Main activities and responsibilities:
 - Head of development group (9 people), lead of development projects;
 - Architect and development of custom and off-the-shelf software (C/C++, Scheme, Lisp, Java);
 - Participation in marketing activity, present solutions for customers;
 - Infrastructure architect (data & process integration projects, network projects, mail projects).
 - **Projects done:**
 - * **Mailboss** (aka SMAP “Dozor-Jet”) – mail filtering and archiving software (architect and developer, leader of development process); https://jet.su/en/services/information_security/;
 - * **Webboss** (aka SKVT “Dozor-Jet”) – web filtering software (architect and develop software, lead the development process); https://jet.su/en/services/information_security/;
 - * **BeepayXP** – payment processing software for the Vimpelkom – large Russian Mobile Company (Data architect, server infrastructure architect, project coordinator);
 - * **File-NG** – data type detection library;
 - * **KC IAS** - lead architect in data and process integration pilot project (on the base of Sun Java CAPS) for a Russian Central bank. Business process analysis, Project architecture design, product selection.
 - * Content-type detection add-on for the Cerberus software (Mail filtering software for Lotus Notes);
 - * Custom Web Portals for the government departments (architect solutions, project coordinator);
 - * Mail projects for different clients (Infrastructure architect, project coordinator);
 - * Custom software solutions (Development in C/C++, Java, Scheme).
- **Teaching assistant & lecturer at Tomsk Polytechnic University**
Dates (from-to): 09.1998–08.2001
Name and address of employer: Tomsk Polytechnic University, Lenina Str, 30, Tomsk, Russia
Positions held: Assistant lecturer at Technical Physics department (Teacher)
Type of business: Education
Main activities and responsibilities:
 - Provide trainings for students in branch of thermodynamic, molecular physics, computer modeling of physical processes;
 - Administration of faculty network (mix of Unix and Windows servers) – 1500 users;
 - Development of Intranet applications.
- **Developer at E-Compare Corp.**
Dates (from-to): 10.2000 – 4.2001
Name and address of employer: E-Compare Corp, USA
Positions held: Developer (remote work)
Type of business: Software Development
Main activities and responsibilities:
 - Writing modules for search engine (Perl, Oracle);
 - Web programming (HTML, JavaScript).

Education and trainings

- **MBA at Magdeburg University, Germany**
Dates (from-to): 2003–2005
Title of qualification awarded: Master of Business Administration
Name and type of organisation: Deutsches MBA Program, Magdeburg University, Germany
Principal subjects: General management, Finance, Marketing

¹²<http://www.jetinfo.com>

- **Engineer** at *Tomsk Polytechnic University*, Russia
Dates (from-to): 1991–1997
Title of qualification awarded: Physicists (Engineer)
Name and type of organisation: Physical-technical department of Tomsk Polytechnic University
Principal subjects: Physic and Chemistry of Plasma, Mathematics
Level in national classification: Higher education diploma

- Online courses, etc. Full list is available on a [separate page](#)¹³.

Technical skills and competences

Patents

- [Proxy Authentication for Single Sign-On](#)¹⁴. Status: Application

Presentations

- 2 times presenter on Intel Software Professionals Conference (SWPC) on topics of software quality, and URL categorization. SWPC is internal conference with very rigorous selection of presentations;
- 2 times presenter at McAfee Innovation Summit - global internal conference about innovative solutions;
- Multiple presentations on small conferences & user groups on different topics - Clojure, Emacs, ...

Programming languages and software development skills

- C and C++ – more than 25 years (mostly in Unix – Linux, Sun Solaris, HP-UX, FreeBSD);
- Java – 15 years (commercial & personal projects);
- Clojure - 10 years (commercial & personal projects);
- Python - 3 years (mostly personal projects);
- Other languages (mostly not active right now): Scheme and Common Lisp (8 years, commercial & personal projects), Erlang (2 years, personal projects), Haskell (1 year, personal projects), OCaml and F# (2 years, personal projects), Scala (personal projects), Go (1 year, personal projects), Perl (5 years, personal & commercial projects), SQL (7 years, Oracle and PostgreSQL);
- UML modeling in complex projects;
- Shell scripting languages - bash, sh, zsh, ...
- NoSQL databases: Cassandra, Apache HBase, Apache Solr, Elasticsearch, CouchDB;
- Continuous integration using Jenkins;
- Static code analysis using Coverity;
- Test-driven development (TDD) using different frameworks - JUnit, Mockito, GMock, GTest, Boost.Test, ...

Other computer-related skills

- Administration of UNIX-like OSes – Linux (since 1996), Sun Solaris (2000–2006), HP-UX (2001–2006), FreeBSD (2000–2006);
- Administration of Windows OSes – NT4, 2000, XP, ...;
- Administration of relational databases (Oracle and PostgreSQL);

¹⁴<http://patents.justia.com/patent/20160205089>

Open Source projects

I'm contributing to different open source code projects including:

- Apache Zeppelin (committer), Apache Tika, ...;
- Clojure-related: Incanter, Leiningen, swank-clojure, Clojure, clojure-hadoop, labrepl;
- Emacs-related: el-get, magit, Muse, GNU Emacs, CEDET;
- ALTLinux—Linux distribution, package maintainer (2001–2004)
- Catdoc—Open-source converter for MS Office files, development of PPT & XLS converters;
- Dansguardian – web-filtering software;
- openfwtk—application level firewall;
- Russian documentation for Linux – author of different articles about Linux.

Information about these & other OSS projects you can find on [github](#)¹⁵ and [ohloh](#)¹⁶.

Personal skills and competences

Languages

- **Russian:** Mother tongue
- **English:** Good reading, writing & verbal skills
- **German:** Good reading, writing and verbal skills

Social and organizational skills and competences

- Ability to work in multinational teams;
- Ability to work in teams (also geographically distributed) and alone;
- Experience in management of development teams;
- Practical experience in management of software projects;
- Participation in Open Source projects.

Other personal info

- **Artistic skills and competences:**
 - Author of multiple articles, in physics and computer-related branches (functional programming, Emacs, programming);
 - Co-author of Russian translation of “GNU Emacs manual”, “Practical Common Lisp”, “Types and programming languages”, and some other.
- **Hobbies:**
 - Sport: Running, Cycling, Hiking
